ZoomInfo

Dear ZoomInfo,

I am writing to express my strong interest in the position at ZoomInfo, as advertised on LinkedIn. My background in building scalable web applications and data pipelines aligns well with the requirements, and I am eager to contribute my expertise to your team. I am particularly drawn to the opportunity to work within a company that values innovation and is a leader in its field.

As a Senior Software Engineer with 8+ years of experience, I have a proven track record of success in designing and implementing complex systems. For example, at Databricks, I architected enhancements to a multi-cloud Lakehouse platform, optimizing distributed data pipelines across AWS, Azure, and GCP. Additionally, at AWS, I directed the modernization of the QuickSight Q architecture using React, TypeScript, and Webpack 5, increasing feature delivery velocity by 40%.

I am particularly attracted to ZoomInfo's commitment to providing equal employment opportunities and its focus on hiring based on merit and qualifications. I am confident that my skills and experience would be a valuable asset to your team, and I am excited about the potential to contribute to ZoomInfo's continued success. I welcome the opportunity to discuss my qualifications further and learn more about this exciting opportunity.

Sincerely,

Art Chen
